Re: Request for records
Request Number: 2025-UID-00139

Dear Byron Tau:

The Department of Labor & Industry is in receipt of your record request, dated January 23, 2025.

The Department understands you are requesting the following documents:

- the master services agreement, contract, or other procurement instrument governing the relationship between ID.me and Montana Department of Labor & Industry.
- any emails with the following terms: “deep fake,” “deepfake” “synthetic identity.”

After searching email inboxes of investigative personnel, the Department has located emails responsive to your request and I have attached them, along with the requested documents from the id.me contract.

Please contact me if you have any questions.

Sincerely,

/s/ Jennifer Stallkamp

Tip Sheet

SIU DMV Article

[\[risk.lexisnexis.com\]](#)

In a 2023 review of one state's DMV data, the **LexisNexis® Risk Solutions Special Investigations Unit (SIU)** identified several areas of risk that many DMVs are likely to encounter. The team identified **numerous deceased, incarcerated, duplicate, stolen, and synthetic identities**. Noteworthy was the team's ability to identify **indications of an insider threat** at one particular DMV.

This situation remains problematic as **driver's licenses are typically used to obtain other government documents**, as well as to purchase property, obtain credit, or file for other government benefits.

DMVs aren't the only organizations encountering stolen or synthetic identities. **Download our tip sheet** to learn how the SIU can perform a population risk analysis on identity data for your agency.

Subject: [EXTERNAL] ID.me | Montana DLI Monthly Sync - December
Date: Wednesday, December 4, 2024 11:05:45 AM
Attachments: [ID.me Executive Intelligence Update - 11.21.24.pdf](#)
[ID.me MT DLI - Monthly Sync - Dec 2024.pdf](#)

Hi Montana DLI Team,

I appreciate you joining our monthly sync today. I just wanted to send over a recap for your reference.

-

SFTP File and Web Connection:

- [ID.me \[id.me\]](#)'s SFTP connection to Montana appears inactive since the state transitioned to a web connection in September 2023.
- Montana confirmed they do not plan to maintain an SFTP process unless required for backup.
- Montana suggested the legacy SFTP configuration might still be listed internally but is no longer in use.

-

[ID.me \[id.me\]](#) Google Cloud Migration:

- No reported impact to Montana users during the migration.
- [ID.me \[id.me\]](#) confirmed the slowdown lasted 6-8 hours and has been resolved.

-

Seasonal Unemployment Trends:

- Montana sees peak unemployment filings in January due to weather-

driven layoffs, seasonal work cycles, and the quarter change.

- November filings included an influx of supervised claims, potentially influenced by a Stillwater monitor review.

- **Customer Support Portal Rollout:**

- [ID.me \[id.me\]](#) introduced a new support portal dedicated to partner agencies.
- The portal will handle escalations, suspected fraud cases, and technical issues more efficiently.
- Partners can continue reaching out to their Customer Success Manager or use the new portal.

- **Fraud Trends and Monitoring:**

- We shared a report highlighting emerging fraud tactics using AI-driven tools like deep fakes (e.g., SwapFace).
- Fraud rates in Montana remain low, but we recommend being aware of these technologies as they become more widespread.

- **Current Projects:**

- Montana's cloud migration remains on track for Q2 2025, with testing phases anticipated to start in March 2025

I have attached the slide deck as well as the fraud report that we covered. Let me know if you have any questions. Have a great week and holiday season!

Thank you,

--

Jason Herrin

Global State of Fraud and Identity Report

[\[risk.lexisnexis.com\]](#)

Trust is the lifeblood of our increasingly digitized world.

When **misinformation, fake news, deepfakes, phishing and other threats** erode constituent confidence, it impacts agencies and organizations. Fortunately, **government agencies and business institutions are rising to this challenge** by finding ways to work together to thwart these threats.

No agency or organization has a complete view of **constituent activities or of fraud tactics**. That's why **collaborative intelligence** is so critical. The **broader and deeper a collaborative network**, the better member organizations can tell **legitimate citizens apart from sophisticated fraud attacks**. Working together enables intelligence sharing, both to help **improve experiences** for trusted constituents and to **detect more risky or fraudulent** activity.

The **LexisNexis® Risk Solutions Global State of Fraud and Identity Report** discusses emerging trends in several key regions across the world, including **key pain points and opportunities** related to fraud risk management, with a special section tailored for government.

Download our report today and learn how **identity and risk insights** — spanning physical, digital, and behavioral intelligence — **can create effective AI-powered analytics** that help protect your constituents and customers worldwide.

			Total \$18,300.00

STANDARD TERMS & CONDITIONS

ACCESS AND RETENTION OF RECORDS: Contractor agrees to provide the department, Legislative Auditor, or their authorized agents, access to any records necessary to determine contract compliance. (Section 18-1-118, MCA). Contractor agrees to create and retain records supporting the services rendered or supplies delivered for a period of eight years after either the completion date of the contract or the conclusion of any claim, litigation, or exception relating to the contract taken by the State of Montana or third party.

ASSIGNMENT, TRANSFER AND SUBCONTRACTING: Contractor shall not assign, transfer or subcontract any portion of the contract without the express written consent of the department. (Section 18-4-141, MCA.)

COMPLIANCE WITH LAWS: Contractor shall, in performance of work under this contract, fully comply with all applicable federal, state, or local laws, rules, and regulations, including but not limited to, the Montana Human Rights Act, the Equal Pay Act of 1963, the Civil Rights Act of 1964, the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and Section 504 of the Rehabilitation Act of 1973. The Contractor is the employer for the purpose of providing healthcare benefits and paying any applicable penalties, fees and taxes under the Patient Protection and Affordable Care Act [P.L. 111-148, 124 Stat. 119]. Any subletting or subcontracting by Contractor subjects subcontractors to the same provisions. In accordance with 49-3-207, MCA, Contractor agrees that the hiring of persons to perform this contract will be made on the basis of merit and qualifications and there will be no discrimination based upon race, color, religion, creed, political ideas, sex, age, marital status, physical or mental disability, or national origin by the persons performing this contract.

CONFORMANCE WITH CONTRACT: No alteration of the terms, conditions, delivery, price, quality, quantities, or specifications of the contract shall be granted without the State Procurement Bureau's prior written consent. Product or services provided that do not conform to the contract terms, conditions, and specifications may be rejected and returned at Contractor's expense.

DEBARMENT: Contractor certifies, by submitting this bid, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (contract) by any governmental department or agency. If Contractor cannot certify this statement, attach a written explanation for review by the State.

DISABILITY ACCOMMODATIONS: The State does not discriminate on the basis of disability in admission to, access to, or operations of its programs, services, or activities. Individuals who need aids, alternative document formats, or services for effective communications or other disability related accommodations in the programs and services offered are invited to make their needs and preferences known to this office. Interested parties should provide as much advance notice as possible.

FAILURE TO HONOR BID/PROPOSAL: If a bidder to whom a contract is awarded refuses to accept the award (PO/contract) or fails to deliver in accordance with the contract terms and conditions, the department may, in its discretion, suspend the bidder for a period of time from entering into any contracts with the State of Montana.

FORCE MAJEURE: Neither party is responsible for failure to fulfill its obligations due to causes beyond its reasonable control, including without limitation, acts or omissions of government or military authority, acts of God, materials shortages, transportation delays, fires, floods, labor disturbances, riots, wars, terrorist acts, or any other causes, directly or indirectly beyond the reasonable control of the nonperforming party, so long as such party uses its best efforts to remedy such failure or delays. A party affected by a force majeure condition shall provide written notice to the other party within a reasonable time of the onset of the condition. In no event, however, shall the notice be provided later than five working days after the onset. If the notice is not provided within the five-day period, then a party may not claim a force majeure event. A force majeure condition suspends a party's obligations under this contract, unless the parties mutually agree that the obligation need not be performed because of the condition.

PAYMENT TERM: All payment terms will be computed from the date of delivery of supplies or services OR receipt of a properly executed invoice, whichever is later. Unless otherwise noted in the solicitation document, the State is allowed 30 days to pay such invoices. All contractors will be required to provide banking information at the time of contract execution in order to facilitate State electronic funds transfer payments.

REDUCTION OF FUNDING: The State must terminate this contract if funds are not appropriated or otherwise made available to support the State's continuation of performance in a subsequent fiscal period. (See section 18-4-313(4), MCA.)

REFERENCE TO CONTRACT: The contract or purchase order number **MUST** appear on all invoices, packing lists, packages, and correspondence pertaining to the contract.

SHIPPING: Supplies shall be shipped prepaid, F.O.B. Destination, unless the contract specifies otherwise.

TAX EXEMPTION: State of Montana is exempt from Federal Excise Taxes (#81-0302402) except as otherwise provided in the federal Patient Protection and Affordable Care Act [P.L. 111-148, 124 Stat. 119].

TERMINATION OF CONTRACT: Unless otherwise stated, the State may, by written notice to Contractor, terminate the contract in whole or in part at any time Contractor fails to perform the contract.

U.S. FUNDS: All prices and payments must be in U.S. dollars.

VENUE: This solicitation is governed by the laws of Montana. The parties agree that any litigation concerning this bid, request for proposal, limited solicitation, or subsequent contract, must be brought in the First Judicial District in and for the County of Lewis and Clark, State of Montana, and each party shall pay its own costs and attorney fees. (Section 18-1-401, MCA.)

ID.me Executive Intelligence Report

The information presented in this report may originate from encrypted messaging services, deep and dark web forums, social media, and other sources obtained through advanced open-source intelligence (OSINT) methods.

Summary

The TIC gathered recent spoofing attempts aimed at defeating the liveness step in ID.me's verification flow. Additionally, threat actors have been identified targeting Tennessee's Department of Labor and Workforce Development, highlighting that ID.me is not required to apply for benefits.

Liveness Spoof Attempts

The TIC has compiled recent instances of bypass attempts targeting the liveness verification step of our verification flow. The attempts include digital injection attacks, and all were detected by our fraud controls.

Figure 1 shows a digital injection attack by a threat actor attempting to pass liveness. The threat actor used the Iruiin Webcam app to inject deepfake images into the webcam stream. Iruiin Webcam allows users to replace the webcam feed of their computer with a feed from an android phone.¹

Figure 1

¹ https://play.google.com/store/apps/details?id=com.jacksoftw.webcam&hl=en_US

Figure 2 shows additional unsuccessful digital injection attacks targeting liveness. The threat actor behind this attack used a tool known as “Swapface” to create multiple deepfake images, before injecting them into the webcam feed using a virtual camera app. Swapface describes their app as an “Easy to use AI face swap” tool, and can be used to create both images and videos.²

Figure 2

² <https://www.swapface.org>

Threat Actors Target Tennessee Unemployment Insurance

Threat actors in various fraud groups have recently been identified targeting Tennessee's Department of Labor and Workforce Development with posts highlighting that Tennessee does not require ID.me. Fraudsters have been observed requesting detailed tutorials for exploiting these vulnerabilities (Figure 3).

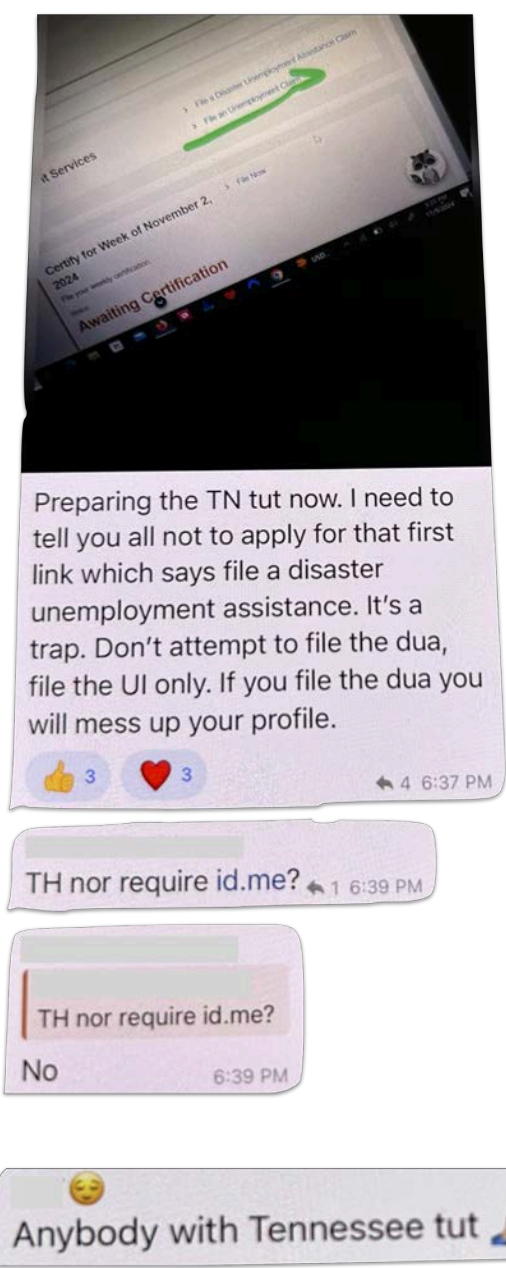

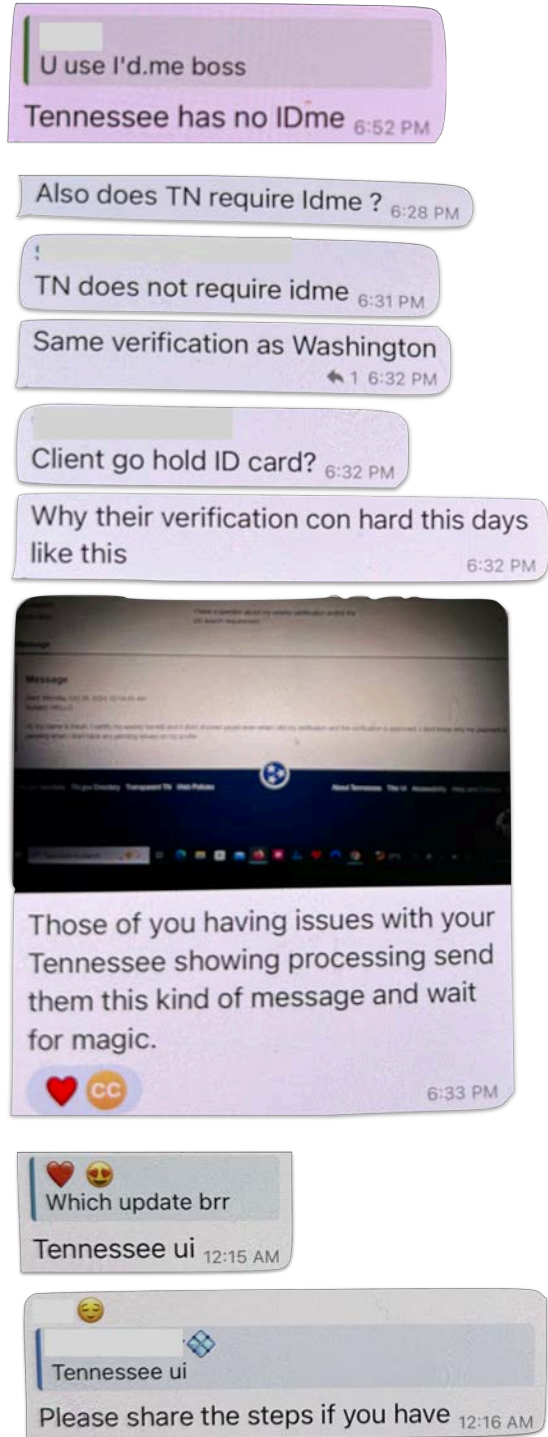

Figure 3

Figure 4 shows recent examples of fraudsters posting from within Unemployment Claimant e-Services accounts, showcasing images of monetary determinations and approved weekly certifications as proof of their success.

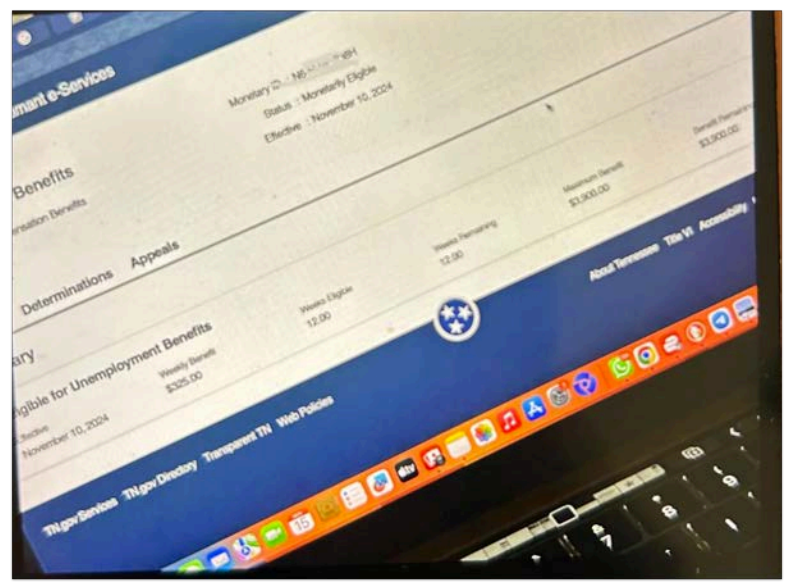

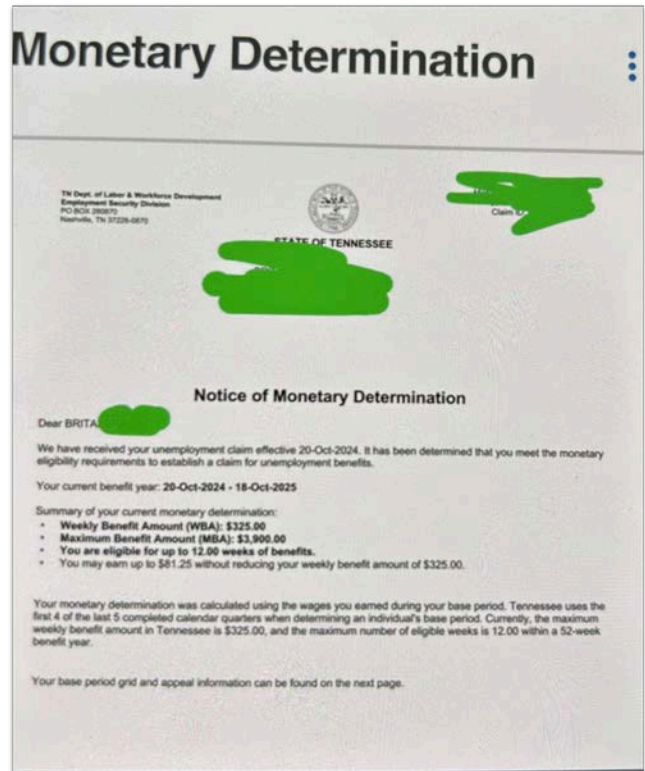

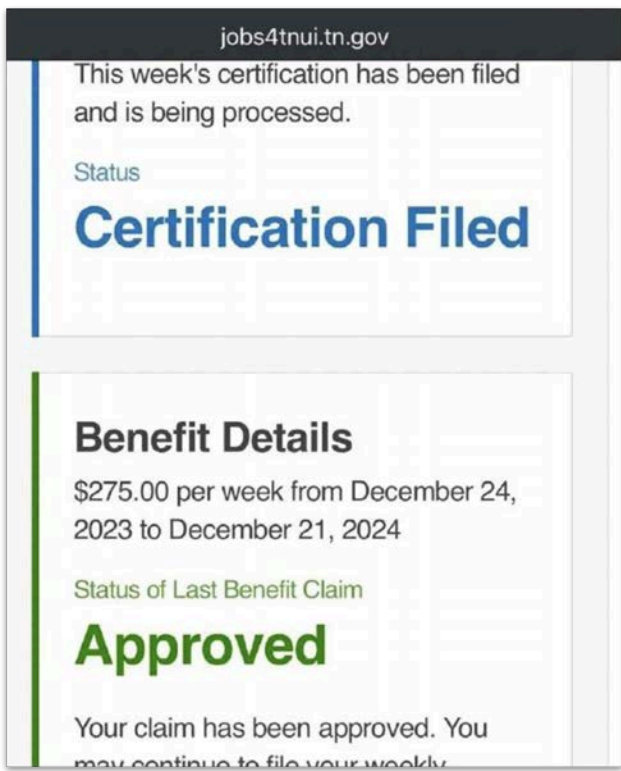

Figure 4

In **Figure 5**, a threat actor asked fellow fraudsters for instructions on setting up an employer profile, a prerequisite for filing fraudulent claims. One threat actor suggested ensuring the use of a Tennessee address to receive official correspondence from Tennessee’s Department of Labor and Workforce Development. The letter sent to the TN address will include an employer account number and pin which can be used to access an employer account and potentially file false claims on behalf of non-existent employees.

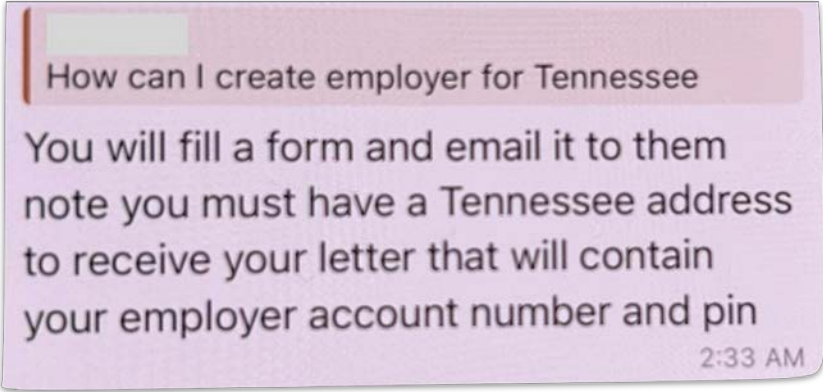

Figure 5

Another threat actor offered to assist fraudsters in bypassing obstacles they might face when fraudulently applying for TN UI benefits, suggesting a possible workaround of the system’s current controls (**Figure 6**).

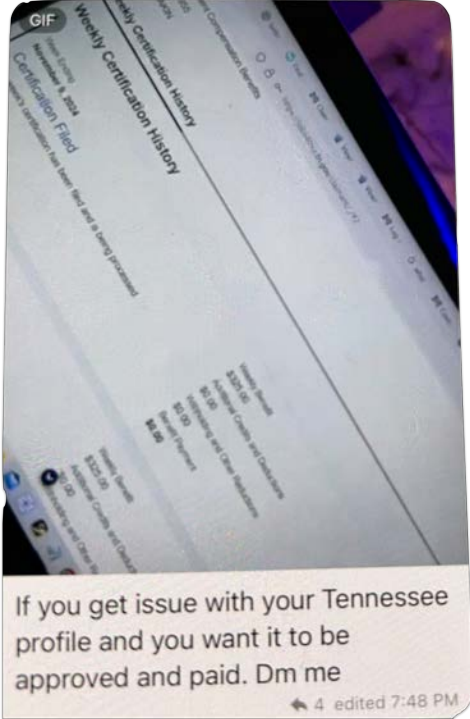

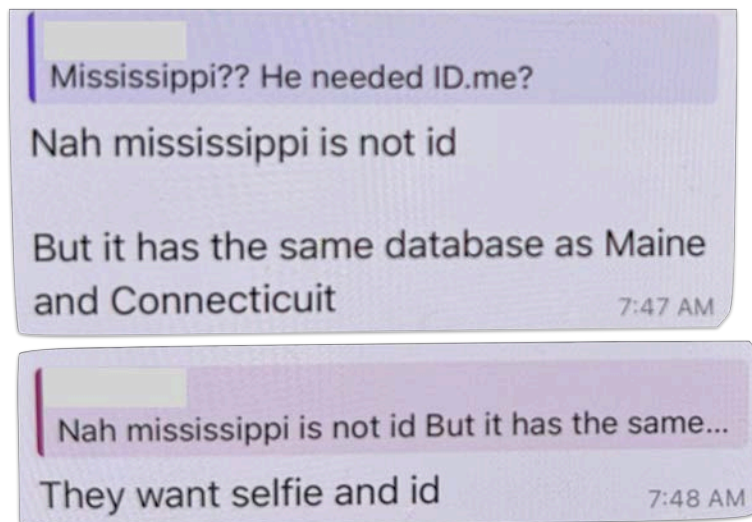

Figure 6

Threat Actors Exploit States that Do Not Require ID.me

Threat actors continue to seek vulnerabilities in state unemployment insurance systems, with an increased focus on those that do not require stringent identity verification controls. In **Figure 7**, threat actors have been identified discussing whether or not state UI agencies require ID.me verification. In particular, some fraudsters are specifically seeking to exploit states that “only need login.gov to file.”

Gob boss, which UI I only need login.gov to file ?

What can I use login dot gov for?
